Message Body:

Hello,

I am Karen Bennett and I work with Fortune Hi-Tech Marketing. I live in your district and I want to tell you that I oppose the FTC's Business Opportunity rule (16 CFR Part 437).

Our business is difficult enough the way it is, and I see no good reason to require a seven-day waiting period. We need to be able to help them accomplish during the first few days they are with us.

Their other requirements on purchasers and names and phone numbers are not anyone's business but ours.

Why should we have to keep up with the lawsuits filed?

I believe this is a very ill-conceived proposal and it should be done away with immediately.

Thank you

Karen Bennett
